

SECTION 01

Technical flat

Front, back and any construction detail needing its own view.

SECTION 02

Construction detail

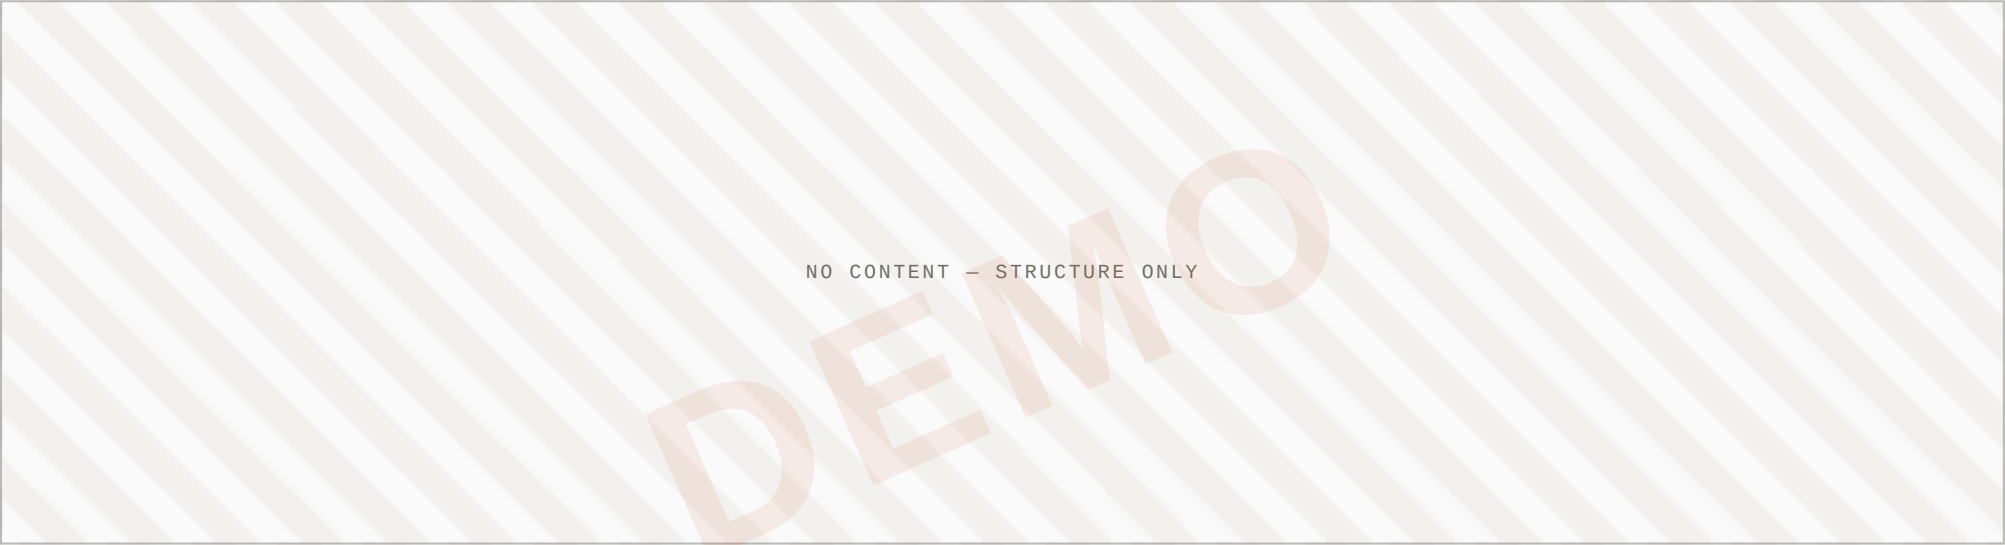

Seam type, stitch class and finish, called out where it is not obvious.

SECTION 03

Measurement chart

Points of measure, defined so the factory and the client measure the same way.

SECTION 04

Grading

Increments across the size range, with the rules that produced them.

SECTION 05

Bill of materials

Every component, placement and quantity the garment consumes.

SECTION 06

Label and packing

Care, content, placement and how the garment leaves the line.
